MAKING YOUR DECISIONS PERFECTLY CLEAR.
YOU’VE GOT QUESTIONS.
ANDERSEN
ANSWERS.

Whether you’re replacing old windows, remodeling your home or building a new house, you have lots of questions about the best way to solve your problems and fulfill your dreams. Andersen has the answers. But don’t take our word for it. Instead, take it from the millions of people just like you who have gone through the same process you’re going through now. For over 100 years, homeowners have turned to Andersen for answers, and in the process they’ve made Andersen the most enjoyed windows and doors in America. When you choose Andersen, you’re not only getting superior products that perform. You’re getting ultimate peace of mind. So take a closer look at Andersen® windows and doors in the pages ahead, and take comfort in your decision to choose Andersen. It’s one choice that’s perfectly clear.

What makes Andersen® windows & doors perform? Page 4

Are you replacing, remodeling or building? Page 6

How do windows & doors influence style? Page 8
What are the six simple selection steps?
Page 14

What are the different Andersen® window & door choices?
Page 30
From energy efficiency and durability to low maintenance, Andersen designs and builds windows and patio doors that are among the best-performing products in the industry. It’s been that way for more than a hundred years, and Andersen is committed to constant innovation as well as rigorous testing of performance and quality to make sure we continue setting the highest possible bar for performance. That’s why peace of mind comes standard on all Andersen® windows and patio doors.
ENERGY EFFICIENCY

We take saving energy seriously.
Saving energy is important to us. That goes for the energy efficiency of the windows and doors we make and also for our manufacturing processes that produce them.

Energy-saving glass for any climate.
Andersen has the glass you need to get the performance you want, including a variety of Low-E glass options to help you control heating and cooling costs in any climate, plus SmartSun® glass that meets ENERGY STAR® qualifications in all climate zones.

The easy way to compare energy efficiency.
If you’d like a quick, accurate way to compare the energy efficiency of windows and doors, just look for the National Fenestration Rating Council (NFRC) label. For details see page 18.

DURABILITY

Tough, time-tested Perma-Shield® exteriors.
The exclusive Andersen® Perma-Shield® system gives our windows and doors a tough, protective shell that safeguards the wood inside. It repels water, resists dents* and stays beautiful for years.

Never needs painting.
The Perma-Shield exteriors on Andersen windows and doors won’t peel, blister, flake or corrode® so they are virtually maintenance free. They come in the five colors most popular with homeowners: White, Canvas, Sandtone, Terratone® and Forest Green.

RELIABILITY

Quality so solid, the warranty is transferable.*
Most other window and door warranties end when a home is sold, but our coverage — 20 years on glass, 10 years on non-glass parts — transfers from each owner to the next. And, because it is not prorated, the coverage offers full benefits, year after year, owner after owner. So it can add real value when you decide to sell your home.

Built for years* to come.
Our products are built strong to last long® We use the right materials in the right places, including solid wood, fiberglass and our own Fibrex® composite material. These give our windows and doors superior strength, stability and long-term beauty.

Take comfort in superior weather resistance.
Andersen patio doors feature unique locking systems that pull the door panel snugly tight. The result is an enhanced weather seal, plus improved security.
Our weather-resistant construction seals out drafts, wind and water so well, you can relax in comfort whatever the weather. We carefully select weatherstripping to match each style of window and door to make sure you enjoy superior comfort and reliability.

We offer options for the harshest weather environments.
400 Series windows with Stormwatch® protection meet building code requirements in coastal areas.** Products with Stormwatch protection are energy efficient, resist the effects of salt water® and stand up to hurricane-force winds and wind-borne debris. For details visit: andersenwindows.com/coastal.

*Visit andersenwindows.com/warranty for details. **See your local code official for building code requirements in your area.
Some aspects of window and door selection are common across all types of projects.

You want windows and patio doors that are energy efficient, have high-quality materials, allow multiple design choices and display long-term beauty and durability. But there are other considerations you should take into account based on the specific type of project you’re doing — replacing, remodeling or building. Whatever the nature of your project, remember: When you work with Andersen, you’re getting the widest array of options to help you solve your problems and achieve the windows and doors of your dreams.
REPLACE
Andersen has a large selection of windows and patio doors that are ideal for replacement projects, including insert windows that are made specifically for replacement. All of our replacement solutions, like our replacement casement window and tilt-wash double-hung insert window, are available in custom sizes for a precise fit. You’ll enjoy instant comfort with virtually no maintenance, plus energy savings and long-lasting beauty.

REMODEL
Deciding to remodel the home you’ve been living in gives you a great opportunity to make it your own and capture your unique vision. The windows and patio doors you choose can play dramatic roles. Create a new view. Add stunning light. Transform your home’s exterior appeal. Enhance your interior décor. And, of course, greatly improve your home’s energy efficiency. Andersen gives you an array of choices to capture your vision, from colors to distinctive hardware and more.

BUILD
Building a new home is your chance to do it your way, and make it last. It’s one of the largest investments you’ll ever make, and the quality of the windows and patio doors you choose will greatly impact the quality and energy efficiency of your home. For homeowners wanting beauty, performance and value, Andersen offers the best of all possible worlds. Choose your interiors, exteriors, styles and accessories from the impressive array Andersen offers. Then sit back and enjoy for years* to come.

*Visit andersenwindows.com/warranty for details.
**ARTS & CRAFTS**
The Arts & Crafts, or Craftsman, home style is marked by a sense of the familiar, the handmade, the “craftsmanship” of design. Attributes of this style include:
- Large glass and single glass openings
- Grilles in the upper sash of the double-hung windows
- Art glass for that distinctive design touch
- 4 ½”-wide flat window trim with sill nose
- Windows and siding are similar in tone; window trim is usually a warm, contrasting color

**COLONIAL**
Colonial today refers to a host of highly popular styles and blended designs. In fact, many homeowners are remodeling other styles of homes, like Ranch, to look more Colonial. Attributes of this style include:
- Dormers and divided light double-hung windows
- Clapboard siding and shutters
- Fan light over entry door
- 3 ½”- or 4 ½”-wide flat window trim, often with a decorative cornice
- White or light gray windows with stark, contrasting window trim

**COTTAGE FARMHOUSE**
As a traditional style, Cottage Farmhouse beckons you back to the casual, simple, relaxed and delightful homestead of an earlier time. Attributes of this style include:
- Grilles add a design touch to double-hung windows
- Double-hung windows are tall and narrow with a simple grille pattern
- 4 ½”-wide flat window trim, frequently with a decorative drip cap
- The most popular window and window trim colors are white and forest green, used in any combination
YOUR HOME IS FAR MORE THAN A DWELLING.
It’s a design statement that speaks volumes about you. Andersen has perfected the art of creating products that are aesthetically ideal no matter what your style. Our windows, doors and exterior trim work in harmony, not only with each other, but also with your home’s architecture. The end result is an enduring investment — timeless beauty and lasting* quality at an exceptional value.

MODERN
The Modern style incorporates clean lines, simple forms and open floor plans. Attributes of this style include:
• Expanses of glass heighten the interior and expand space and light
• Casements and awnings are widely used window types in Modern homes
• 2”-wide brick mould window trim used to minimally highlight the windows or to create a shadow line

RANCH
Blending styles is becoming more and more popular, and Ranch homeowners are remodeling interiors to be more contemporary and exteriors to be more traditional. Attributes of this style include:
• Ribbon or large plate-glass windows are common
• Divided light windows enhance both curb appeal and interior aesthetics
• Double-hung, casement and awning windows are used alone and in combinations
• Window trim is either 3 1/2”-wide flat or 2”-wide brick mould and typically coordinates with other features such as roofing or masonry

YOUR HOME STYLE
The styles outlined here represent just some of the more popular architectural approaches seen in homes today. The full range of home designs extends even beyond these to include many combinations. Your home may be a blended style, or may fall specifically into a genre or suite described here. Whatever look you’re trying to achieve, Andersen can help you get there.

*Visit andersenwindows.com/warranty for details.
Are you matching an existing look? Creating a new look? Seeking architectural authenticity? Through colors, materials, shapes, trim, accessories and more, Andersen gives you the critical tools to achieve your look, style and unique vision.
REPLACING
When choosing replacement products, look at the materials used to make them. Andersen® replacement windows and doors have rich wood interiors that add value to your home. So you’re not just replacing, you’re upgrading.

When you have a look and style you want to emulate, you can accomplish it with Andersen through our array of choices.

PRESERVE AN EXISTING LOOK

Window location can make a dramatic difference. Position a large window to celebrate your home’s surroundings. Or configure your windows or doors to accentuate the light or warm the room.

ENHANCE THE VIEW
Walls of glass bring you in harmony with your surroundings. When the distinction between outside and inside fades, outdoor spaces start to feel like rooms.

Window and door projects are seldom just “window and door projects.” Think about windows and patio doors as having a powerful impact on your home’s light, view and outdoor living.
Sunlight is an essential architectural tool. Design with careful window choice and placement, and you can transform an interior as the sun moves through the day.

**REMODELING**
Consider the sight lines when you install windows. Depending on your room arrangement, you should be able to see out the window from both seated and standing positions.

**DESIGN WITH DIMENSION**

Use window sequences to paint shapes with light. Achieve just the right look with repeating patterns or isolated statements that bring rhythm to a home.

**CAPTURE THE LIGHT**

WHAT ARE THE SIX SIMPLE SELECTION STEPS?

When you break down the window and patio door selection process, it’s really not that complicated. It involves a few basic steps: Start by picking the types of windows and doors you want. Then choose glass, your exterior and interior options. And, finally, enhance your selections with grilles, hardware and accessories. Andersen makes the selection process easy and the final product exquisite.

4 ADD STYLE WITH GRILLES

W I N D O W  T Y P E S

DOUBLE-HUNG
A double-hung window has two vertically sliding sash in a single frame. Double-hungs lift open while remaining flush with the wall, making them ideal around patios, decks and walkways. See page 32.

CASEMENT
Casement windows are hinged windows that, with a turn of a crank, open outward to the right or to the left. Casements are common above kitchen sinks and give you flexibility to group in stunning combinations. See page 34.

AWNING
Awning windows are hinged at the top and open outward. They catch breezes from the left or right and are often used above, below or alongside stationary windows. See page 34.

GLIDING
Gilding windows feature two sash, with at least one of the sash sliding horizontally past the other. They give you the advantages of double-hung windows with a more contemporary look. See page 34.

STATIONARY
Stationary windows, as the name states, are windows that don’t open. Often referred to as picture windows, they’re typically used in combination with venting windows. See page 36.

SPECIALTY
Specialty windows are stationary windows characterized by their special shapes, including curves and dramatic angles. They can make a signature statement in your home and provide a delicate lighting accent. See page 36.

COMBINATIONS: Explore the many possibilities of putting shapes and sizes together.

To create your own design go to andersenwindows.com/windowcentrics.
REPLACING
Replacement doesn’t mean you have to put in the same type of window as your old one. For example, put a new, convenient casement window in place of your old and hard-to-operate double-hung. If you’re changing window type, however, be sure to verify that the new window meets codes in your area.*

BAY & BOW
Bay and bow windows are window combinations that project outward from a home. These dramatic combinations can add space, volume and light to a room and add more personality to any home.
See page 36.

GLIDING
With at least one panel that glides smoothly past another door panel, you’ll get more room where you need it — inside or out.
See page 36.

HINGED INSWING
To save room in smaller areas such as balconies, patios and decks, you’ll love the space-enhancing benefits of inswing patio doors.
See page 40.

HINGED OUTSWING
With panels that swing outward, these doors give you more usable space inside your room.
See page 40.

SIDELIGHTS & TRANSOMS
Expand your hinged patio door with elegant combinations, including sidelights, transoms and stationary door panels.
See page 40.

*See your local code official for building code requirements in your area.
CHOOSE YOUR GLASS

Glass can affect energy efficiency more than any other part of a window or patio door — and not all glass performs the same. Some types of glass do a better job at insulating your home. Others provide greater clarity. You can even choose glass to filter out specific kinds of light. Andersen offers one of the industry's widest arrays of glass options, so you’re sure to find the right choice for your climate and your home.

U-Factor indicates how well a product prevents heat from escaping. The lower the number the better.

Solar Heat Gain Coefficient measures how well a product blocks heat caused by sunlight. The lower the number the better.

Visible Transmittance refers to how much visible light comes through a product. The higher the number the better.
No matter what type of project you’re doing, choosing your glass is key. Andersen® high-performance Low-E4® SmartSun™ glass blocks unwanted solar heat while allowing light to stream through. The result is lower energy costs and protection for furniture, carpets and drapes by blocking out 95% of the damaging ultraviolet rays that can cause fading.

**BEST-IN-CLASS GLASS**

**Low-E4® Glass**  
Outstanding thermal performance for climates where both heating and cooling costs are a concern. It is up to 56% more energy efficient than ordinary dual-pane glass.

**Low-E4 SmartSun™ Glass**  
It gives you the benefits of Low-E4® glass, plus it helps shield your home from the sun’s heat and filters out 95% of harmful UV rays while letting sunlight shine through.

**Low-E4 Sun Glass**  
It’s tinted for maximum protection from the effects of intense sunlight while providing all the benefits of Low-E4® glass.

Additional glass options including tinted, laminated, tempered and clear dual-pane are available. Contact your Andersen dealer for details.

### PATTERNED GLASS

Patterned glass lets in light while obscuring vision and adds a unique decorative touch to your home.

DESIGN YOUR OWN PATTERN

Andersen gives you complete flexibility to design your own custom grille style. You sketch it, our craftsmen will create it.

**Shown**: Andersen 400 Series casements with custom circle pattern grilles in transoms.
REPLACING OR REMODELING
Grilles influence style, and the choices at Andersen are endless. You can use grilles to make your casement windows look like double-hung windows. Or you can match existing grille patterns. If you want to match existing windows, it’s a good idea to take a picture of your current windows before seeing your contractor or Andersen dealer.

GRILLE CONFIGURATIONS

Full Divided Light
Give your window an authentic look with full divided light grilles that are permanently applied to the interior and exterior of your window with a spacer between the glass.

Simulated Divided Light
Simulated divided light offers permanent grilles on the exterior and interior with no spacer between the glass. We also offer permanent exterior grilles with removable interior grilles, available in natural wood or prefinished white.

Convenient Cleaning Options
Removable interior grilles come off for easy cleaning. Andersen® Finelight™ grilles are installed between the glass panes and feature a contoured 1” or ¾” profile.

CHOOSE YOUR WINDOW HARDWARE

With Andersen® windows, the hardware* you choose does more than just provide mechanical functions. It enhances the overall design of your windows and harmonizes with your home’s cabinetry and décor.

At Andersen, we design hardware ranging from the traditional and classical to simple and contemporary.

ANDERSEN® HARDWARE FINISHES

The hardware* on our windows is created especially for Andersen, with a wide range of finishes. Choose window hardware finishes that coordinate with lighting and other room décor.

*All Andersen® hardware is sold separately, except standard hardware.
**REPLACING OR REMODELING**

With Andersen, you have a beautiful array of hardware styles and finishes to enhance your home’s décor. If you’re replacing or remodeling, it’s important to choose finishes that best complement the hardware you already have. Look at your lighting, plumbing, cabinetry and other areas for guidance.

CHOOSE YOUR DOOR HARDWARE

Choose Andersen® patio doors, and you’ll enjoy a wider selection of hardware styles and finishes than you’ll find with just about any other manufacturer. We offer six distinctively different styles — Yuma®, Encino®, Anvers®, Newbury®, Covington® and Whitmore® — in solid, forged brass with eight metal finish options. And we offer two styles — Tribeca® and Albany — in diecast zinc with durable powder-coated finishes. Also, be sure to check out our additional hardware options such as exterior keyed locks, matching hinge finishes and more.

REMODELING
Distressed finishes on brass replicating the look of cast bronze are growing in popularity. Many of the new finishes are characterized as “living” because they wear with use and develop a patina. For more information on finishes and to see photos of all patio door hardware styles and finishes, go to: andersenwindows.com/patiodoorhardware.

DOOR HARDWARE FINISHES

Distressed bronze and oil rubbed bronze are “living” finishes that will change with time and use. Bright brass and satin nickel finishes on patio door hardware feature a 10-year limited warranty. Matching hinges available for inswing patio doors. Printing limitations prevent exact finish replication. See your Andersen dealer for actual finish samples. *Hardware sold separately.
ENHANCE WITH ACCESSORIES

Bring a whole new level of protection and style to your windows and doors with Andersen® insect screens — including the innovative TruScene® insect screen technology. You can also add beauty and enhance your home’s style with elegant art glass panels.

INSECT SCREENS

TRUSCENE® INSECT SCREENS — 50% GREATER CLARITY*

Exclusive Andersen TruScene insect screens provide more than 50% greater clarity than our conventional insect screens for a beautifully unobstructed view. And they let in more fresh air and sunlight, while doing a better job of keeping out small insects.

FRAMES

For casement and awning windows, TruScene insect screen frames are available in stone, white or natural pine that can be stained to match the window. Insect screen frames for all other windows are installed on the exterior of the window and match the unit’s exterior color.

FULL OR HALF WINDOW INSECT SCREENS

All hinged and gliding patio door insect screens have a long-lasting** fiberglass screen cloth with a charcoal finish. Available in White, Sandtone, Terratone® and Forest Green colors to match the exterior of the door.

GLIDING PATIO DOORS

Gilding Insect Screen

Gilding insect screens are available for two- and four-panel doors.

Retractable Insect Screen

The retractable insect screen is installed on the exterior of the door and opens side-to-side across the width of the opening. When the insect screen is not in use, it neatly retracts into a small canister. Available for two-panel patio doors.

PATIO DOOR INSECT SCREEN OPTIONS

HINGED — INSWING PATIO DOORS

Hinged Insect Screen

Available for single-panel doors.

Double-Hinged Insect Screen

Available for two-panel double-jamb hinged doors.

Gilding Insect Screen

Available for all two- and three-panel doors.

HINGED — OUTSWING PATIO DOORS

Retractable Insect Screen

The retractable insect screen is installed on the interior of the door across the width of the opening. When the insect screen is not in use, it neatly retracts into small canisters. Retractable insect screens for outswing doors are available with White, Pine, Oak or Maple interiors. Available for single- and two-panel doors.

FULL OR HALF WINDOW INSECT SCREENS

Full insect screens are available for all Andersen windows. Andersen also offers the option of half insect screens for the lower sash of our tilt-wash double-hung windows.

PATIO DOOR INSECT SCREEN OPTIONS

All hinged and gliding patio door insect screens have a long-lasting** fiberglass screen cloth with a charcoal finish. Available in White, Sandtone, Terratone® and Forest Green colors to match the exterior of the door.

GLIDING PATIO DOORS

Gilding Insect Screen

Gilding insect screens are available for two- and four-panel doors.

Retractable Insect Screen

The retractable insect screen is installed on the exterior of the door and opens side-to-side across the width of the opening. When the insect screen is not in use, it neatly retracts into a small canister. Available for two-panel patio doors.

PATIO DOOR INSECT SCREEN OPTIONS

Retractable Insect Screen

The retractable insect screen is installed on the interior of the door across the width of the opening. When the insect screen is not in use, it neatly retracts into small canisters. Retractable insect screens for outswing doors are available with White, Pine, Oak or Maple interiors. Available for single- and two-panel doors.

Printing limitations prevent exact color replication. See your Andersen dealer for actual color samples. *Comparisons made to conventional Andersen aluminum insect screens. **Visit andersenwindows.com/warranty for details.
ART GLASS
With art glass from Andersen, you can enhance a transparent look, express your individuality or add a touch of elegance. These finely crafted inserts are designed to fit most Andersen® windows and patio doors. Go to andersenwindows.com/artglass for more details.

FRANK LLOYD WRIGHT® SERIES
Each of the four patterns inspired by renowned architect Frank Lloyd Wright remains true to the principles of Wright’s original work: simplicity, unity and nature.

CLASSIC SERIES
Give your home a classic look with five different styles that represent major architectural design themes from the late 1800s through the 1930s, as well as a Southwestern-inspired design.

ARTISAN SERIES
Two designs influenced by 20th century American and European architectural schools feature striking visual patterns that evoke an extraordinary blend of art and nature.

"Frank Lloyd Wright" is a registered trademark of the Frank Lloyd Wright Foundation.
WHAT ARE THE DIFFERENT ANDERSEN WINDOWS & DOORS?

On the following pages, we present our window and patio door selections according to the different window and door types. Within each type, you’ll see our offerings listed by product line. To the right is a quick guide to help you gauge what each product line represents.

NARROLINE® CONVERSION KIT
If your home has Andersen Narroline® windows that were made after 1967, our quick conversion kit can turn them into convenient, tilt-wash double-hung windows with high-performance Low-E4® glass. It installs easily with less mess than ordinary window replacement. Plus, it matches your existing window inside and out and is backed by our full Owner-2-Owner limited warranty.

Visit andersenwindows.com/narroline, where you can download measuring guides and watch an installation video.
**REPLACING**

There are many reasons to replace your old windows, and just as many advantages. Whether you want to increase energy efficiency, update the style of your home or simply replace windows that just don’t operate like they should, Andersen has replacement solutions that are perfect for the job. Look for them on these two pages, plus pages 34–35.

**Custom Sizes**

See your local code official for building code requirements in your area. See the ** disclaimer on page 35 for additional details.

**OPENING CONTROL DEVICE KIT**

Window opening control devices for 400 Series and 200 Series double-hung windows limit the opening of the lower sash to less than 4 inches when the window is first opened. Release of the device allows the sash to fully open for maximum ventilation, escape or rescue. Once the lower sash is returned to the closed position the device automatically resets. The device is available in White and Stone finishes.

To see if an Andersen insert window is right for your home, visit andersenwindows.com/replacement, where you can download a measuring guide and watch an installation video.
400 SERIES
CASEMENT WINDOWS
Made like no other.

Andersen® 400 Series casement windows start with a design that is extremely energy efficient. Add to that a solid-wood sash covered inside and out by low-maintenance Perma-Shield® cladding to protect against water damage. Then give them rich, natural pine interiors and it’s easy to see why they have become our best-selling window.

400 SERIES
AWNING WINDOWS
Beautiful...versatile...practical.

Andersen 400 Series awning windows give you the same features and outstanding performance platform as our casement windows. In addition, they add design options. For example, placed high on a wall, awning windows can bring light and fresh air into your home without compromising privacy.

400 SERIES
GLIDING WINDOWS
Designed to be one of the best-engineered windows of its kind.

In addition to providing top energy efficiency, reliable performance and uncommon beauty, both sash on our 400 Series gliding windows can be opened to the left or right to give you improved ventilation.

200 SERIES
GLIDING WINDOWS
Easy operation. Excellent energy efficiency.

Andersen 200 Series gliding windows feature a single operating sash. These windows are available in our most popular sizes with our most requested options and give you low-maintenance exteriors, real wood interiors and the security of our renowned Owner-2-Owner® limited warranty.

*Visit andersenwindows.com/warranty for a copy of the limited warranty.
Casement and awning window replacement made easy.

If you're replacing old casement or awning windows, Andersen makes replacement windows specifically for the job. They come fully prepped for easy installation with the nailing flange removed, holes predrilled, and a convenient installation kit including screws, shims and flexible foam backer rod to help you install like a pro.

OPENING CONTROL DEVICE KIT**

Window opening control devices for 400 Series casement windows feature a simple, orange push-button clearly identifying the release mechanism of the device, and an innovative flip cap that shields it from accidental release. Made of corrosion-resistant stainless steel, the opening control device can operate with the insect screen in place and automatically reengages when the window closes.

SINGLE-ACTUATION LOCK

This Andersen® lock is engineered to secure casement windows firmly at multiple points with just one handle. The single-actuation lock also features a “reach-out” action that pulls in the sash for a weathertight seal.

REPLACING OR REMODELING

If you’re remodeling or replacing windows, you should know that building codes sometimes require egress windows — ones that can be used as an emergency exit. Casement windows are often your best choice for egress, because they provide a larger passageway than double-hung or gliding windows. And here’s another Andersen advantage: If the other windows in your home are double-hungs, our 2 ¾-inch-width grille running across the center of a casement window simulates the look of a double-hung. See page 22 for example.
STATIONARY WINDOWS

ANDERSEN® 400 SERIES SPECIALTY WINDOWS

These specialty windows let you complement your home’s architecture with graceful curves, elegant arches and dramatic angles. Used alone or in combination with other windows, they heighten curb appeal and enhance the character of your home.

EXTENDED GOTHIC

EQUAL LEG ARCH

OCTAGON

TRAPEZOID

HALF CIRCLE

Also available to match Andersen® 200 Series double-hung windows.

OVAL

CIRCLE

SPRINGLINE™ FLANKER

RECTANGULAR WINDOWS

Andersen makes picture and transom windows to complement the sizes and profiles of Andersen 400 Series double-hung, casement and awning windows, as well as Andersen 200 Series double-hung windows.

BAY & BOW WINDOWS

Andersen bay and bow windows are window combinations that project outward from a home. These windows also project the beauty and personality of your home inside and out.
FLEXIFRAME® WINDOWS

Flexiframe® windows are available in custom sizes and can be designed in nearly any shape made with straight lines, providing no angle is less than 14 degrees. When other window companies say it can’t be done, Andersen does it easily and beautifully.

REPLACING OR REMODELING

If you’re planning to replace a group of windows, consider replacing them with a bay or bow window to provide a beautiful interior cove that can make a room appear larger. A wide range of double-hung, casement and picture window combinations is possible.

EXAMPLES OF ALTERNATIVE SHAPES.

Andersen® 400 Series stationary windows are available with impact-resistant glass and structural upgrades to meet the tough building codes of hurricane-prone coastal areas. See your local code official for specific requirements in your area.
400 SERIES FRENCHWOOD® GLIDING PATIO DOORS
Traditional French door styling. Convenient gliding design.

With their wide wood profiles, Frenchwood® gliding patio doors give your home the old-world character of traditional French doors while, at the same time, they give your family the convenience and space savings no hinged door can provide. And, because they’re Andersen® patio doors, they are just as effective in sealing drats and water out of your home. Add to that quality construction with mortise-and-tenon dowel joints and self-adjusting dual ball-bearing rollers, and you can be sure they’ll deliver smooth sliding and solid performance for years.* Our Frenchwood gliding doors offer an extensive array of options and accessories and are available in two- and four-panel configurations to fit virtually any size requirements.

INSECT SCREENS
Andersen patio door insect screens are made from fiberglass screen cloth with a charcoal finish and are available in several styles.

*Visit andersenwindows.com/warranty for details.
REPLACING
If you’re replacing a three-panel door, you can add a stationary panel to any Andersen® two-panel gliding door. They all come in custom sizes, so you’re sure to get a perfect fit.

200 SERIES PERMA-SHIELD® PATIO DOORS
Low maintenance inside and out.
A tried-and-true classic, Perma-Shield® patio doors are protected inside and out with rigid vinyl cladding to give your home a contemporary look and energy-saving performance, while keeping maintenance to a minimum. They are available with the most popular options and accessories.

200 SERIES NARROLINE® PATIO DOORS
Let the sun shine in.
Our 200 Series Narroline® gliding patio doors combine the beauty of natural wood with sleek contemporary profiles to maximize your view and fill your home with sunlight. Available with our most popular options, heights up to eight feet and four-panel configurations that can give your home walls of light over 15 feet wide.

HINGED PATIO DOORS

400 SERIES FRENCHWOOD® HINGED PATIO DOORS
Patio doors as beautiful as all outdoors.
Frenchwood® hinged patio doors not only open your home to the world outside, they bring the beauty of nature inside. They can flood a room with sunlight and provide panoramic views, and their wide wood profiles add an undeniable elegance to their surroundings. Yet they are just as effective in sealing the elements out. And with quality construction like mortise-and-tenon dowel joints and a multi-point locking system that seals the doors tight at the top, center and bottom, they’re built to stay that way for years.*

Our Frenchwood hinged doors offer an extensive array of options and accessories, including sidelights and transom windows, and are available in two operating styles: inswing and outswing.

SIDELIGHTS & TRANSOMS
For a special design touch, frame your Andersen® patio doors with a border of Andersen sidelights and transom windows. They dramatize the exterior appearance, enhance your view and create a larger wall of light.

INSECT SCREENS
Andersen patio door insect screens are made from fiberglass screen cloth with a charcoal finish and are available in several styles.

*Visit andersenwindows.com/warranty for details.
BUILDING
Walls of patio doors can dramatically change the appearance of your home, both inside and out. They have the ability to bring the outside indoors by making the most of a beautiful view, as well as allowing natural light and fresh air to flow deep into the room.

MULTI-POINT LOCKING SYSTEM
Our Frenchwood® hinged patio door features a locking system that positions two hook bolts above and below the center deadbolt. When you engage the lock, these two bolts tighten the door against the frame to help keep the weather out and secure the door firmly.

COMBINATIONS
Be creative in putting together your ideal hinged patio door design. For example, consider a three-panel door with two moving panels and one stationary panel. You’ll love the view, and the look will transform your home’s beauty.

400 SERIES FRENCHWOOD® HINGED INSWING PATIO DOORS
Frenchwood hinged inswing doors are a good choice if they open to a small balcony, deck or patio, and are often used in colder climates where snow might build up outside the door. They are available in one-, two- and three-panel configurations.

400 SERIES FRENCHWOOD® HINGED OUTSWING PATIO DOORS
Frenchwood hinged outswing doors are a good choice if you’re short on interior space. Often used in warmer climates, they allow you to place furniture, artwork and decorations closer to your interior entryway. They are available in one- and two-panel configurations.

200 SERIES HINGED PATIO DOORS
Traditional styling. Modern convenience.
Our 200 Series hinged patio doors are virtually maintenance-free inside and out. Their hook-deadbolt lock provides more strength, a more weathertight seal and added security compared to ordinary deadbolt locks. They are available in one- and two-panel configurations.

CUSTOM SIZES

Printing limitations prevent exact color duplication. For complete technical details, visit andersenwindows.com/products.
Andersen® entranceways combine exceptional beauty and detail with dramatic sizes and shapes to turn ordinary entranceways into grand statements.

- The very finest grades of oak, maple, cherry, pine, mahogany, alder and fir. Other wood species are available through special order.
- Available with wood exteriors or aluminum-clad wood in 21 colors.
- Divided light grilles in standard and custom patterns.
- Sidelights and transoms give you increased design flexibility.
- Optional handle hardware comes in a variety of styles and finishes.
- A wide variety of glass options offer energy efficiency and beauty. Decorative glass options are also available.

*Actual wood species is Sapele, also known as African mahogany, a nonendangered hardwood with color and characteristics similar to American mahoganies.
These windows and doors are carefully handcrafted to complement our 400 Series and 200 Series products with dramatic sizes and extraordinary shapes that give your home a signature look. They include casement, awning and specialty windows, as well as hinged inswing, hinged outswing and folding outswing patio doors. Custom sizes and shapes are also available. If you can dream it, Andersen® complementary windows and doors can bring it to life.

**CASEMENT & AWNING WINDOWS**

Andersen complementary casement and awning windows offer easy operation along with old-world style. They include French casements — twin sash inside of one frame with, unlike ordinary casements, no mullion bar between them, giving you a totally unobstructed view. Complementary casement windows are available in rectangles, trapezoids and a variety of arched shapes.

**SPECIALTY WINDOWS**

Andersen specialty windows let you choose from 35 uncommon shapes, including elegant arches, striking angles and compelling curves.

**CURVED-TOP PATIO DOORS**

With features like Romanesque arches, towering transoms and insulated decorative art glass, nothing else quite matches the grandeur curved-top patio doors can bring to your home.

**FOLDING OUTSWING PATIO DOORS**

When you want to blur the line between indoors and out, these are the doors to choose. When closed, they are a stately wall of light. When open, they fold virtually out of sight. Choose from configurations up to 48 feet wide and operating modes that let you open the doors from the left, right or center.
Respect for the environment is nothing new at Andersen. For more than a century, it’s been part of who we are. Our commitment to recycle and reclaim materials began simply because it was good business. Now it’s part of our commitment to sustainability and responsible stewardship of all our resources. Andersen is committed to providing you with long-lasting, energy-efficient windows and doors.
